Wire 2008 a success

The weeks rush by and two months have already passed since the expo highlight of the year. If we summarise our impressions and results from Wire 2008 in Düsseldorf in one word it would be success.

They were hectic days in our booth with visitors from all corners of the earth. Around 30 countries were represented in the visits to our booth to talk about wire. Most of our existing customers paid us a visit, as did many new customers to acquaint themselves with our quality Swedish wire. The many visitors were offered Swedish beer and elk sausage in a beautiful Värmland backdrop, a feature that was well appreciated by Swedes and others.

Thanks to everybody who visited our booth and made the expo such a success.

New Production Manager

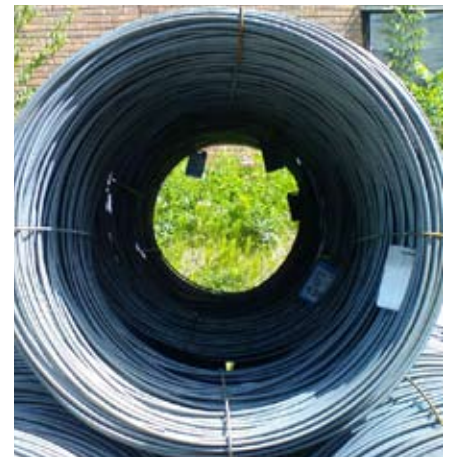

In August, Patrik Svensén becomes new Production Manager at Springwire. Patrik is 35 and comes from Saab Bofors Dynamics in Karlskoga, where he

worked in research and development. We believe that Patrik has much to add to the sound knowledge base and tradition that already exists here in Lesjöfors.

Springwire wishes you all a happy summer!

The first summer month is here at last and the holiday period is soon upon us. But a lot remains to be done before then. It has definitely been an eventful first half year and the holidays will be

a well-deserved break at a hectic time. We at Springwire would like to wish all our customers and suppliers a very pleasant summer.
